Rowing Exercisers

Máquinas de Ejercicio de Remo

ローイングマシン 划船练习架

The rowing machine incorporates many muscle groups at once, creating a great workout.

• Magnetic rower

The magnetic rower uses a maintenance-free magnetic break system to create resistance. The magnets are incorporated into the flywheel. They adjust resistance in calibration with your pull and are set.

• Air rower

The air rower has a flywheel that creates air resistance as you pull against it and can be calibrated to increase or decrease resistance.

The air resistance also goes against the force being applied, therefore, the faster you pull, the harder the resistance. The design simulates rowing in water, with a fluent and natural motion.

Please specify "Magnetic" or "Air" resistance rower, the power source voltage when ordering.

Smart Digital Tuner® Worldwide

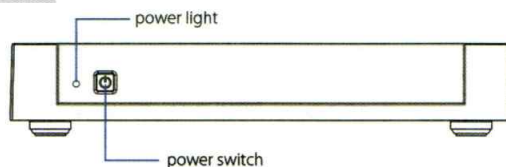

Sintonizador universal de televisión digital terrestre

地上デジタルテレビチューナー 地面数字电视调谐器

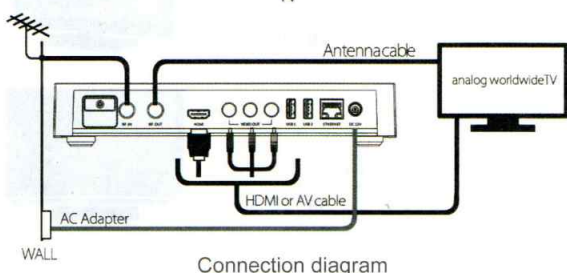

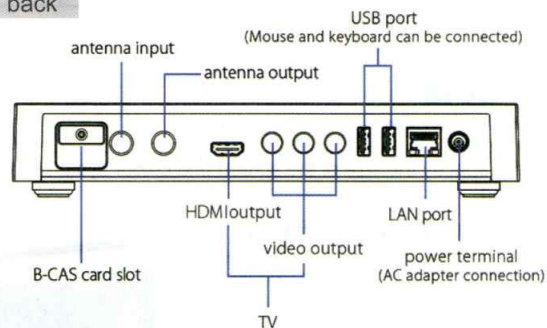

A worldwide digital terrestrial TV (DTT) receiver for ocean going ships. Designed to tune-in to all approved DTT broadcast standards, such as, ATSC, DVB-T/T2, ISDB-T, ISDB-Tb, and DTMB. This enables viewing of terrestrial digital broadcasts, on ships in port or navigating along a coastline, simply by connecting it for ships to an existing TV and antenna. Furthermore, internet browsing function is provided using built-in lightweight browser.

Connection diagram

Digital Terrestrial TV Broadcasting Standards by region

DVB-T/T2	European countries, Russia, Australia, Taiwan, Singapore, UAE etc.
ATSC	USA, Canada, Korea etc.
ISDB-T	Japan
ISDB-Tb	South America, Philippines etc.
DTMB	China, Hong Kong etc.

- * To receive terrestrial digital broadcasts, it is necessary to have the corresponding TV antenna.
- * Even if the antenna and this product are set up properly, and correctly connected, reception of terrestrial digital broadcasts will be impossible in countries without terrestrial digital broadcasting.
- In addition, various problems may occur such as blocking of signals by neighboring buildings, inability to receive weak signals, only being able to receive specific broadcasting channels, audio cutting out, and stopping of video, and appearance of block noise.
- * Topographic conditions as well as weather conditions have great influence on TV terrestrial reception range.
- * Pay broadcasts (scrambled broadcast) cannot be viewed.
- * Internet (communication line and Internet service provider contract) is required to enjoy web browsing.
